Waiting Room Guidelines

Joyful Journey OT

Keeping everyone safe and comfortable

At Joyful Journey OT, we aim to create a welcoming, child-friendly space for all families. To help keep everyone safe and comfortable, children in the waiting room must always be supervised by a parent or caregiver.

Supervision

- Children must stay with a responsible adult at all times
- Our staff are not able to supervise children in the waiting area
- Siblings are welcome, as long as they are supervised

Safety in the Waiting Room

Our waiting room is not a fully child-proofed play space. Please help us keep everyone safe by ensuring children:

- Stay in the waiting area
- Do not climb on furniture
- Use toys and equipment safely
- Respect other families and sessions

Toys and Activities

- Toys and books may be available to share
- Please use them respectfully and leave them at the clinic
- You are welcome to bring your own activities

If a child is left unattended

If a child is alone, we will try to find their caregiver straight away to ensure their safety.

Thank you for helping us create a safe and welcoming environment for everyone.
